CHINESE CUISINE

Chinese cuisine comprises cuisines originating from China, as well as from Chinese people from other parts of the world. Because of the Chinese diaspora and the historical power of the country, Chinese cuisine has profoundly influenced many other cuisines in Asia and beyond, with modifications made to cater to local palates. Chinese food staples such as rice, soy sauce, noodles, tea, chili oil, and tofu, and utensils such as chopsticks and the wok, are found worldwide.

MACARONI SPECIAL

Macaroni is pasta shaped like narrow tubes. Made with durum wheat, macaroni is commonly cut in short lengths, curved macaroni may be referred to as elbow macaroni. Some home machines can make macaroni shapes but, like most pasta, macaroni is usually made commercially by large-scale extrusion. The curved shape is created by different speeds of extrusion on opposite sides of the pasta tube as it comes out of the machine.

Grilled Beef Double Burger

A hamburger, or simply a burger, is a dish consisting of fillings—usually a patty of ground meat, typically beef—placed inside a sliced bun or bread roll. The patties are often served with cheese, lettuce, tomato, onion, pickles, bacon, or chilis with condiments such as ketchup, mustard, mayonnaise, relish or a "special sauce", often a variation of Thousand Island dressing, and are frequently placed on sesame seed buns. A hamburger patty topped with cheese is called a cheese-burger. Under some definitions, and in some cultures, a burger is considered a sandwich.
